# NATURAL WOOD LOOK

PRESENTATION TRAYS IN  
AUTHENTIC WOOD TEXTURE

## Authentic texture

The wood grain is realistically modeled on real wood, perceived on real wood and always consistent in appearance.

## Lightweight and durable

The trays are very sturdy and yet light. Maximum sales, less excess baggage charges.

## Available with rounded or straight edge

The outer covering can be applied to both edge shapes and can be assembled at different heights.

## Individual logo print

Upon request the trays can be printed with your company logo in your CI color

## PRODUCT DETAILS

Introducing our innovative WOOD DESIGN cover material, we offer a compelling alternative to traditional real wood. Our presentation trays, available in the Vario Norm, Vario Lux, and Basic Plus series, can be conveniently sourced externally. This not only results in a reduction in weight but also lowers production costs, enabling quicker delivery times.

What sets our product apart is the wide range of surface designs available through our external cover options. This selection ensures a consistent and elegant appearance, even when ordering in larger quantities. Personalize your design to suit your unique preferences from our extensive array of complementary inlays. Feel free to get in touch with us to create your unique presentation.
